The Retirement Board
City of Taylor Police and Fire Retirement System
Taylor, Michigan

Dear Board Members:

The purpose of the annual actuarial valuation of the City of Taylor Police and Fire Retirement System as of June 30, 2013 is to:

- Compute the liabilities associated with benefits likely to be paid on behalf of current retired and active members of the Retirement System,
- Compare accrued assets with accrued liabilities to assess the funded condition of the Retirement System, and
- Compute the City's recommended contribution rate for the Fiscal Year beginning July 1, 2014.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices. Data concerning active members, retirees, beneficiaries and assets was provided by your staff. This data has been reviewed for reasonableness, but no attempt has been made to audit such information. The valuation was based on the provisions of the Retirement System as amended through June 30, 2013. The actuarial assumptions used in this valuation represent reasonable expectations of future experience under the System. This valuation has been prepared under the supervision of a Member of the American Academy of Actuaries who meets the qualification standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Respectfully submitted,

Denise M. Jones

Sandra W. Rodwan, M.A.A.A

Section One:
Valuation Summary

Purpose of Valuation

The purpose of the annual actuarial valuation of the City of Taylor Police and Fire Retirement System as of June 30, 2013 is to:

- ❖ Compute the liabilities associated with benefits likely to be paid on behalf of current retired and active members of the Retirement System,
- ❖ Compare accrued assets with accrued liabilities to assess the funded condition of the Retirement System, and
- ❖ Compute the City's recommended contribution rate for the Fiscal Year beginning July 1, 2014.

Liabilities and Funded Condition of Retirement System

Accrued liabilities of the Retirement System as of June 30, 2013 were computed to be \$161,043,175 (does not include the \$248,839 in additional liability as a result of the settlement). The funding value of accrued assets was \$99,259,779. The ratio of the funding value of accrued assets to accrued liabilities was 61.6%.

Funding Value of Assets

A smoothed market value of assets was used for the June 30, 2013 valuation. This method, which spreads the difference between actual and expected investment return over five years, is unchanged from last year's valuation.

Computed City's Contribution Rate

The City's normal cost contribution rate was computed to be 14.45% of active member payroll (22.45% total normal cost less 8.00% member contributions). The unfunded accrued liabilities were amortized over 25 years as a level percent of future payroll. The amortization of the unfunded accrued liabilities was 41.41% of member payroll. The amortization of the additional liability (\$248,839), for the pension increase resulting from the settlement of Case No. 01-72176, is 0.17% of member payroll. The City's total contribution for the FY beginning July 1, 2014 was therefore computed to be 56.03% of member payroll.

Retirement System Experience

Experience for the year ended June 30, 2013 was less favorable than expected. The primary source of the unfavorable experience was the recognized rate of investment return on the smoothed funding value of assets which was less than assumed (4.2% vs. 7.6%).

Assumption and Method Changes

Probabilities of retirement for Command were changed to reflect eligibility for DROP with 20 years of service.

Benefit Provision Changes

- Command Officers are eligible for DROP participation after 20 years of service.
- Corporal/Patrol hired after 9/30/2011 – the multiplier is 2.25% for all years of service and normal retirement is age 50 with 25 years of service.

Participant Data

	<u>06/30/2013</u>	<u>06/30/2012</u>

Section Two:

***Actuarial Calculations –
Funding***

Computed Contribution Rates for the Year Beginning July 1, 2014

The contribution rates shown below are expressed as level percents of active member payroll.

The normal cost can be viewed as the long-term on-going cost of the Retirement System. Unfunded actuarial accrued liability as of June 30, 2013 and the additional liability due to the settlement was amortized as a level percent of payroll over 25 years and added to the computed normal cost. The 25 year period was first used for the 2012 valuation. The City’s total contribution rate has been computed to be 56.03% of payroll for the fiscal year beginning July 1, 2014.

	<u>Percents of Payroll</u>
Normal Cost	
Regular Retirement	19.87%
Pre-retirement Death	0.43
Disability	1.02
Withdrawal	<u>1.13</u>
Total Normal Cost	22.45%
Member Portion	8.00
City’s Computed Normal Cost	14.45%
Unfunded Actuarial Accrued Liability	41.41
Additional Contribution for settlement*	0.17
City’s Total Contribution Rate	56.03%
City’s Dollar Contribution**	\$5,409,465

*Pension increase for retiree effective 8/1/2013 pursuant to Case No. 01-72176 settlement.

**Based on projected payroll.

Unfunded Actuarial Accrued Liability

	<u>June 30, 2013</u>	<u>June 30, 2012</u>
Actuarial Accrued Liabilities	\$161,043,175*	\$160,414,696
Assets Allocated to Funding	<u>99,259,779</u>	<u>99,683,637</u>
Unfunded Actuarial Accrued Liabilities	\$61,783,396*	\$60,731,059

Comments and Recommendations

Comment 1: Experience for the year ended June 30, 2013 was less favorable than assumed based on the long-term assumptions. The primary source of the unfavorable experience was the recognized rate of investment return on the funding value of assets which was less than assumed (4.2% vs. 7.6% assumed).

Comment 2: Pursuant to the Board’s request, the increase in the computed contribution generated by the increase in the annual pension of one retiree (from \$80,000 to \$100,000 effective August 1, 2013), pursuant to the settlement of Case No. 01-72176, was added as a line item to the computed contributions for fiscal year 2014/2015.

Recommendation: Retired life liabilities as of June 30, 2013 were computed to be \$119,785,940, and the Reserve for Retired Benefit Payments was reported to be \$117,054,252. The following transfer from the Reserve for Employer Contributions to the Reserve for Retired Benefit Payments is recommended in order to fully cover the retired life liabilities as of June 30, 2013.

Recommended Transfer	
To Reserve for Retired Benefit Payments	From Reserve for Employer Contributions
\$2,731,688	\$2,731,688

Section Three:

***Retirement System
Benefit Provisions***

Benefit Provision Summary

Service Retirement

Eligibility:

Corporal/Patrol hired prior to 10/1/2011 and Fire hired prior to August 1, 2012: Any age with 20 or more years of service or age 60 regardless of service. Fire post July 31, 2012 hires are covered by a Defined Contribution Plan.

Corporal/Patrol hired after 9/30/2011: Age 50 with 25 or more years of service or age 60.

Police Command: Any age with 25 or more years of service or age 60 regardless of service. Command officers are eligible to participate in the DROP after 20 years of service.

Annual Benefit:

Corporal/Patrol hired prior to 10/1/2011:

Straight life pension equals 2.8% of average final compensation (AFC) times first 25 years of service, maximum of 70% of AFC.

Police Command and Fire hired prior July 1, 2007:

Straight life pension equals 2.8% of average final compensation (AFC) times first 25 years of service plus 1.0% of AFC times years of service in excess of 25 years to a maximum of 75% of AFC.

Fire hired on or after July 1, 2007 (and before August 1, 2012) and Corporal/Patrol hired after 9/30/2011:

Straight life pension equals 2.25% of AFC times years of service. Fire AFC will use base wages only and overtime is capped at \$3,000. Corporal/Patrol AFC shall be base wage plus a maximum of 240 hours of paid leave.

Average Final Compensation:

Highest 3 years out of last 10.

Deferred Retirement

Eligibility:

10 or more years of service.

Annual Benefit:

Computed as service retirement but based upon service, AFC and benefit provisions in effect at termination. Benefit begins at date retirement would have occurred had member remained in employment.

Duty Disability Retirement

Eligibility:

Payable upon the total and permanent disability of a member in the line of duty.

Annual Benefit:

To age 55: 50% of AFC.

At age 55: Same as Service Retirement Pension with service credit from date of disability to age 55.

Non-Duty Disability

Eligibility:

Payable upon the total and permanent disability of a member with 5 or more years of service

Annual Benefit:

To Age 55: 1.5% of AFC times years of service.

At Age 55: Same as Service Retirement Pension.

Duty Death in Service Survivor's Pension

Eligibility:

Payable upon the expiration of a worker's compensation to the survivors of a member who died in the line of duty.

Annual Benefit:

Same amount that was paid by worker's compensation.

Non-Duty Death in Service Survivor's Pension

Eligibility:

Payable to a surviving spouse, if any, upon the death of a member with 10 or more years of service.

Annual Benefit:

Fire: Spouse's pension equals 60% of the straight life pension.

All others: Accrued straight life pension actuarially reduced in accordance with an Option I election.

Death After Retirement Survivor's Pension

Eligibility:

Payable to an eligible surviving spouse, if any, upon the death of a retired member who was receiving a straight life pension which was effective July 1, 1975 or later.

Annual Benefit:

Spouse's pension equals 60% of the straight life pension the deceased retiree was receiving.

Member Contributions

8% of pay.

Section Four:

***Actuarial Assumptions
And Methods***

Actuarial Assumptions

Economic Assumptions

(i) Interest Rate 7.6% (net of expenses)

(ii) Salary Increases
 Across-the-Board 0% until 2017 then 3.5% thereafter
 Merit and Longevity Age-related rates

Sample Annual Rates of Salary Increase

24	20		20			
25	100	50%	50			
26		40	50			
27		40	50			
28		40	50			
29		40	50			
30		90	100			
31		40				
32		100				

Corporal/Patrol hired prior to 10/1/11 and Fire members are eligible for retirement with 20 years of service or after attaining age 60. Police Command are eligible for DROP with 20 years of service. All others are eligible for normal retirement with 25 years of service or after attaining age 60.

Lump sum factors: 17% of active member normal retirement liabilities for Police and 10% of active member normal retirement liabilities for Fire. These loads may need to be revised in the future based on emerging experience.

Actuarial Method Used for the Valuation

Normal Cost. Normal cost and the allocation of actuarial present values between service rendered before and after the valuation date were determined using an individual entry-age actuarial cost method having the following characteristics:

- ❖ The annual normal costs for each individual active member, payable from date of hire to date of retirement, are sufficient to accumulate the value of the member's benefit at the time of retirement;
- ❖ Each annual normal cost is a constant percentage of the member's year-by-year projected covered pay.

Financing of Unfunded Actuarial Accrued Liability. Unfunded actuarial accrued liability was amortized as a level percent of payroll over a 25 year period and added to the computed employer normal cost.

Active member payroll was assumed to increase 3.5% a year for the purpose of determining the level percent of payroll amortization payment.

Section Five:
Valuation Data

Asset Summary

As of June 30, 2013 the market value of assets was reported to be \$104,412,884. The funding value of assets (smoothed market value) was computed to be \$99,259,779.
